

Arizona Air Quality Workshop

Wednesday, February 5th

9 a.m. – 3:30 p.m.

Arizona Department of Environmental Quality

1110 W. Washington St. Phoenix, AZ

Room 3175

Want to learn more about how air emission source categories and other states' air emissions affect other states? Don't miss this opportunity to learn more about ozone and particulate matter concentrations in Arizona and the West.

Tom Moore, Air Quality Manager for the Western Regional Air Partnership, will present a one-day workshop covering two collaborative air quality studies in the West that will provide information for western air quality planning in the future. Learn about these studies, what the results show, what the data can be used for and how these studies can help Arizona and other western states assess air quality.

Agenda

9 - 11:30 a.m. West-wide Jumpstart Air Quality Modeling Study

1 - 3:30 p.m. Three-States Data Warehouse and Air Quality Study

Please RSVP to Kathie Bain at ksb@azdeq.gov or at (602) 771-2377 so we can ensure enough seating. Also, please feel free to circulate this flyer to other interested parties.
